of command & the majority  
parts

1800 A Hard PLT down staying  
even. working for Dr. -  
talk Peter Collins who a J.S. 1  
misunderstanding and was plan  
to support PIT - I advised  
him I was on call in  
which where he said  
PLT had took things as far  
as they could go said no more  
all good... important to  
work together now. added some  
concern at the beginning  
Spent the individual members  
ask if they were let  
loose what could they  
do, unable to do anything  
because lack of command  
approval - hours - I could  
open Rodan + Garrison maybe  
Monday or Tuesday -  
other guy said could open  
roads in one area &  
move vehicles to cross  
lanes - another guy said  
he could get a road open.  
another guy talked about  
2 trucks leaving - said  
were up in an area where  
people can go that isn't  
blocking roads to provide  
a central place to provide  
principals

in protests.

- Spent as middle management  
ten around construction.

John Ferguson, Peter Collins, Mike,  
Jo, Louis, Michael M., Andrew W.

Told of struggle in command  
about all great things  
that can be done.

1405 - Mike Stole - Call regarding some  
of the good PCT ideas +  
potential outcomes - no answer

1416 Call Mark Patterson - for  
ability to launch good  
ideas - no answer

- Talk about the Christ  
direction to "negotiate, negotiate,  
negotiate" + the continual  
meetings where M. Patterson  
may be lower before calling  
back - in the absence of  
command approval does

John Reel confident in  
making decision to launch  
said he does + with

Go to next room to  
address PCT both OPS +  
DPP + John changed his  
mind and has to seek  
approval.

- Louis very frustrated

- Leave - Louis calls Mike

advised of Tweet from  
BLS regarding missing people in gas

without letting PIT know  
can we talk it down  
every fraction giving messages  
to PIT.

- I call John Ferguson & raise  
concern.

1519 - Gary Mowels about how bad  
work is - how no one  
can make decisions - great  
opportunities passing by because  
of lack of command structure  
which would not give direction  
+ not nimble enough to  
be able to pivot as  
needed in dynamic situations

1542 - Advise Craig Abrams of same  
concerns

1559 Advise John Atkinson of  
same concerns

1638 2.5 call in Di Marshbanks  
in old command + lack  
of work - Lead may  
be crossing negotiated gas  
concerned in carrying on

1642 to me call in Mark Patterson  
regarding potential arrest, charge  
+ seizure of gas in  
Carryton - said would be  
detrimental to the relationships  
trust + future use of  
PIT with us and  
beyond. Said "not fair" that  
wouldn't take for evidence in seizure

meeting Jim Rob Stewart, +  
Jeff Butcher regarding  
political letter - productive convo's  
w/ govt & authoritarians -  
looking now at who / when /  
how - Mary Givichy is important - I  
should be cautious about  
meeting movements of all  
movements Wokwation / Tyendinega  
example - Need to be cautious  
of bigger picture & impacts  
of Ottawa everywhere -  
Spoke in BC about which should  
concern about literacy instructions  
in other provinces and having  
be not and what is happening  
in Ottawa is impacting BC.  
- Talking through plan - With some police  
liaison w/ demonstration leaders - resources  
blockades w/ facilitate people leaving  
for return will be able to meet  
w/ govt. - I advise for  
consideration what police can do  
get a idea of percentage  
of group they can influence ->  
Ask if anyone else can  
be speaking w/ - I am working  
behind the scenes to get  
nothing - But things need to go well last  
and need to act in good faith

so that people in Ottawa or  
 don't act like they are  
 being held hostage. Committee  
 do next is no negotiating authority.  
 Restrictions are already being  
 in means by commerce  
 like this is good thing.
